

Beauty Salon Price List (Level 3)

CELLULITE BUSTER

G5 LEG FARADIC	£6.00
FIRM & TONE	£6.00

Well known as electrical muscle stimulation, this treatment is used to tone and tighten the muscle of the body. The great thing about this treatment is that the client lies on the couch and the muscles are exercised for them.

In addition to that, the treatment can treat muscles in one area creating an intensive effect.

The treatment involves pads strapped to the area to be treated. The pads deliver a low faradic current into the skin and muscles stimulating nerve endings to provide a muscle contraction. The muscle will contract at regular intervals as selected by the therapist.

The treatment is very comfortable, many clients finding the sensation.
