

Accelerator Programme for entrepreneurs and growing businesses in County Durham

If you have a County Durham-based business that's been trading less than twelve months or you're looking to launch an ambitious, potential high-growth start-up, you can join a six-month fully-funded accelerator programme - the Durham City Incubator (DCI).

DCI supports any ambitious entrepreneurs in Durham with the vision to start and scale up their business. We particularly encourage student and graduate talent from Durham University and New College Durham to apply.
